DETAILED ACTION

Allowable Subject Matter

1. Claims 1-22 are allowed.
2. The following is an examiner's statement of reasons for allowance: In regard to claims 1, 15 and 21, the prior art, individually or in combination, fails to disclose, teach or suggest repeating relaying the communication data between two of the terminals such that the communication data is relayed only in a first particular direction from a first terminal to a second terminal, until the communication data reaches an intermediary terminal mounted in the vehicle in a particular area and relaying the communication data in any direction, after the communication data reaches the intermediary terminal in the particular area. The closest prior art, Masood et al, discloses repeating relaying the communication data between two of the terminals such that the communication data is relayed in multiple directions and not only in a first particular direction.

Claims 2-14, 16-20, and 22 further define the invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marie A. Weiskopf whose telephone number is (571) 272-6288. The examiner can normally be reached on Monday-Thursday between 7:00 AM and 5:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas Black can be reached on (571) 272-6956. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
